CROSSHEAD MODEL R

ULTRA QUICK TOOL / HEAD CHANGING SYSTEM

*HEAD / TOOL CHANGE IN LESS THAN 1 MINUTE
DRASTIC REDUCTION OF DOWN TIME AND SCRAP
HIGH CONCENTRICITY OF INSULATION
CABLE FROM Ø 0,1MM TO 70MM
MULTI LAYER COEXTRUSION
EASY MAINTENANCE*

E-XHEAD PRECISION EXTRUSION CROSSHEADS FOR ALL EXTRUDERS

"R" SYSTEM ULTRA QUICK HEAD CHANGE IN LESS THAN 1 MINUTE

CROSSHEAD IS IN PRODUCTION POSITION

CROSSHEAD IS PURGING POSITION TO REMOVE HEAD CARTRIDGE

CROSSHEAD CHANGE OVER HEAD CARTRIDGE

E-XHEAD® Crosshead Model R
Model "R" crossheads for Quick Head / Insert change, has been developed for changing the tools / crosshead insert in less than 1 minute.

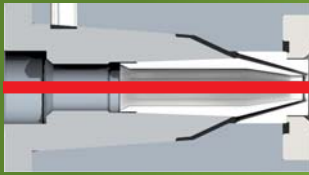

The main advantage is that the head insert support is fixed on the extruders and does not require removing or automatic clamp. As well as no further alignment is required .

The "R" system can be connected up to five extruders. The tools / crossheads insert change and pre-heating is possible while the line is in production. R crosshead are suitable for flexible and short length production.

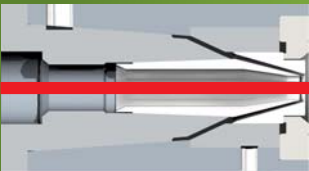

Material such as XLPE, LSHF, HDPE, EPDM can be process on "R" system

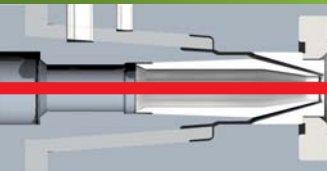

MODEL R CONFIGURATION

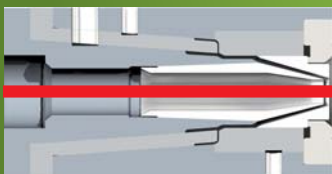

SL - SINGLE LAYER

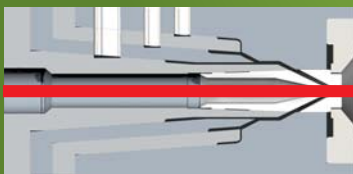

S - SINGLE LAYER + SKIN / STRIPES

DL - DUAL LAYERS

DLS - DUAL LAYERS + SKIN / STRIPES

TL - TRIPLE LAYERS
